

**NOTICE FOR EMPLOYERS, UNIVERSITIES AND OTHER INSTITUTIONS
MANDATING COVID-19 VACCINES**

April 26, 2021

This serves as notice that the requirement for any individual to be vaccinated against COVID-19 for employment or participation at a university or other institution violates federal law. All COVID-19 vaccines are merely authorized, not approved or licensed, by the federal government; they are Emergency Use Authorization (EUA) only. They merely “may be effective.” Federal law states:

Title 21 U.S.C. § 360bbb-3(e)(1)(A)(ii)(I-III) of the Federal Food, Drug, and Cosmetic Act states:

individuals to whom the product is administered are informed—

- (I)** that the Secretary has authorized the emergency use of the product;
- (II)** of the significant known and potential benefits and risks of such use, and of the extent to which such benefits and risks are unknown; and
- (III) of the option to accept or refuse administration of the product**, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks.

EUA products are by definition experimental and thus require the right to refuse. Under the Nuremberg Code, the foundation of ethical medicine, no one may be coerced to participate in a medical experiment. Consent of the individual is “absolutely essential.” A federal court held that the U.S. military could not mandate EUA vaccines to soldiers. *Doe #1 v. Rumsfeld*, 297 F.Supp.2d 119 (2003). The court held: “...the United States cannot demand that members of the armed forces also serve as guinea pigs for experimental drugs.” *Id.* at 135. No court has ever upheld a mandate for an EUA vaccine.

The liability for forced participation in a medical experiment, including injury or death, may be incalculable. Medical and religious exemptions will be insufficient to overcome the illegality of EUA vaccine mandates. Children’s Health Defense urges U.S. employers, universities and other institutions to respect and uphold the rights of individuals to refuse EUA COVID-19 vaccines.
