

COVID-19, Vaccination & Censorship

February 2021

If there is an Agenda, then how is it possible the whole world appears to be in on it?

To find your answer, YOU need to make the effort to investigate, and decide for yourself?

Below are links to information to help get you started.

Your Mind, Your Body, Your Choice

CONSOLIDATE decision makers to control the narrative: Industry, Science, Medicine, Government Departments, Media, Technology platforms etc.

CRISIS = FEAR (Invisible enemy)

CONTROL the people – Manipulate their emotions through information, prey on their inherent desire to help each (greater good) > voluntary compliance! Keep escalating the narrative until the people need their government to \$urvive (collapse the economy). To what end?

*"If you tell a lie big enough and keep repeating it,
people will eventually come to believe it."*

by Hitler's Minister of Propaganda, Joseph Goebbels

Are simple lies being repeated over and over?

Novel Coronavirus > For the Greater Good > Stop the Spread > Flatten the Curve > Stay at Home > Social Distance > Super Spreaders > Wear a Mask > Contact Tracing > Vaccinate > New Normal > Digital ID > Digital Currency > 5G > AI > 24/7 Surveillance/Tracking > Control

Agenda 2030

"You will own nothing and you will be happy"

"What ever you want, you will rent"

Learn how to research online to find censored information?

1. Use alternate **search engines** other than Google, such as **DuckDuckGo.com (DDG)**
Why? Watch Google whistleblower's story: <https://youtu.be/ck49VTrVp4U>
2. Use a VPN to disguise your location when you search, free version www.protonvpn.com
3. Search on **alternate video platforms** such as Bitchute.com, Rumble.com, ugetube.com
4. Find **web archives** by pasting URL's into www.archive.org . For historical caches of deleted websites and YT videos or simply to look at the history of a web page.
5. Often someone has backed-up/mirrored a deleted video on an alternate platform to Google's YouTube. To locate: type into DDG the word "Bitchute" or "Rumble" followed by the Title of the video that was deleted. YouTube Search is censored so use DDG to search for videos, you'll get more choice for censored topics
6. Be aware that **Wikipedia** is controlled information. Check to see if there is a padlock in the top right hand corner of the page – this means editing is controlled, citations controlled!
7. Be aware of who owns **Fact Checker** websites! Another source of controlled information that often appear high in the search results. Be sure to fact check the fact checkers.
8. Bookmark web pages you like and add tags for easy location in future

How does a government get to a point where it can justify enforcing/coercing/mandating an experimental “vaccine” on it's people for a disease that 99.7% survive and early treatments have shown to be safe and effective?

Choice needs to be 100% optional, without coercion?

Enforcing any one-size-fits-all medicine is unethical, inhumane and over-reaching?
And simply tyrannical when the manufactures are liability free!

In the case of the disease called COVID-19:
99.7% of people survive COVID-19 (CDC)

The vaccines are experimental with never-used-before new technology
with no long term health safety knowledge (beyond 2 mths)
and now won't have longer term because control groups are being eliminated through offering them
the vaccine

The vaccines contain ingredients with unknown safety data
Synthetically modelled mRNA fragment of the S1 spike protein from January 2020,
of a virus that hasn't been isolated!

All past phase 1 coronavirus animal trials failed with deaths upon challenge
what happens in 6 – 18 months when the vaccinated encounter another “common cold” coronavirus?
Will the vaccine recipients experience an uncontrollable cytokine storm upon challenge?
Are our regulatory bodies ensuring phase 1 trials were successful?

The COVID Vaccines:

won't stop transmission of SARS CoV2

<https://thehighwire.com/videos/does-the-covid-vaccine-prevent-transmission/>

won't prevent contraction of SARS CoV2

At best they may help reduce symptoms of COVID-19

Two doses are necessary (Pfizer, Moderna), how many more?

Masks and social distancing will still remain necessary...

so why again is the vaccine recommended?

Questions to ponder!

You'll find many answers in the video links following

How did multiple, independent vaccine manufactures bring a new vaccine to the market so fast and
ALL arrive about the same time? What are the chances?

Why are they all using new technology?

Was something wrong with the traditional antigen + adjuvant vaccine formulations?

All COVID-19 vaccines seem to be a direct or indirect version of mRNA technology? Why?

Moderna refers to their's as gene therapy not vaccine!

Who owns the patents to those technologies? Who benefits financially?

If you have a bad reaction to the vaccine, is the government (tax payer) liable?

Now that we've had 12 months, was all cause mortality greater than average?

Did deaths get reclassified as COVID-19

Independent weekly investigative online health channel:

A great place to begin, so many past videos on this site.

The Highwire with Del Bigtree – weekly health reporting with a focus on vaccine safety, viewed by millions around the world each Thursday (USA time). <https://thehighwire.com/watch/>
Episode: **Pandemic in Hindsight** > <https://thehighwire.com/videos/the-pandemic-hindsight-is-2020/>

Big Pharma is now Big Vaccine!

Many don't realise that vaccines are the “\$aviour” of a failing Big Pharma drug industry due to many reasons like expensive “cost of doing business” law suits, patents expiring, less new molecules discovered, regulatory restrictions. Drugs are not as profitable as they once were. But vaccines are a highly lucrative business. In USA the manufacturer are 100% liability free – they can't be sued! <https://1986theact.com/> And vaccines are considered biologics not pharmaceuticals, which allows them lesser safety testing – something to do with war-time grandfather clauses!

Pharmaceutical drug safety testing uses the Gold Standard which means “double blind inert placebo controlled trials” and they are monitored for generally years. Vaccines do not follow the Gold Standard. The placebo is generally another vaccine or adjuvant, rarely an inert placebo control. And often in children they are monitored for only days post vaccination for potential side effects. https://youtu.be/_1xey8zlyQo
<https://thehighwire.com/videos/the-vaccine-safety-project/> (also 1:26 coronavirus vaccine reference!)

Did all the COVID-19 vaccines use an inert placebo or did they use another vaccine as the control group? In USA ICANdecide.org forced their government agencies to insist vaccine manufactures use saline placebo in their trial, but vaccines trialled outside US appear to not use inert placebo control.

Deep dive into vaccine trial <https://www.bitchute.com/video/OsRxtyDTGPVt/>

If we had treatment options an experimental vaccine would not be necessary!

Early Treatment of COVID-19 - “Second Pillar”

Many “COVID-19 early treatment success” videos by frontline doctors have been CENSORED. The doctors focused on re-purposing drugs with known safety profiles (off-label use), to treat patients early who presented with symptoms, in order to prevent hospitalisation. **It worked.** This information has been available since early to mid 2020, but not easy to find!

Early treatments were censored, the medical establishment advised rest/paracetamol until hospital required. These brave doctors didn't wait. Their stories below.

If we had effective treatments for COVID-19 then there would be no need for a Vaccine! Why was Pillar 4 the focus by the Global and Local “Health Establishments” from the very beginning of 2020?

Are the Health Establishment leaders and decision makers independent of Big Pharma influence\$?
Were “clinical trials” conducted by “Health Establishments” designed to fail from the outset?

Dying of COVID or with COVID?

USA reported deaths due to COVID alarmed the world. But were there abnormal contributing factors that elevated the true Deaths resulting from COVID-19?

Every year the elderly and those with co-morbidities can die if they get the flu, is COVID-19 much different? Is the death toll much higher in US & UK because mostly of paperwork?
