

Now is the time to stand together & RESIST the JAB.

Explanation and actions regarding the August 20, 2021, Residential Aged Care Facility (RACF) "State of Emergency" Direction.

See highlights: <https://bit.ly/2VmWhDw>

Risk your health/life to save your job?

Clause 12 of the **Directions** (link above), states that you will escape Sept 17, 2021 lockout from your workplace **if you** have a **medical exemption** (see 12(3)) or you have a **temporary exemption** (see 12(4), & especially (4)(c)). You will have to get your 12(4) exemption **from a police officer**, who is an "*authorised officer*" referred to in 12.

It would help you obtain a 12(4) temporary exemption if your employer confirms that your presence at your RACF is necessary to ensure maintenance of quality care to the residents.

These are steps you can take that will make it harder for the government to force your employer to lock you out.

If your employer unreasonably refuses to assist you in obtaining a temporary exemption, that you would otherwise be entitled to receive from them, **you may have remedies against your employer under the fair work act.**

Understand that **all the COVID-19 vaccines** are ONLY approved under Provisional Registration (a clause only available since March 2018), so the long-term safety risk to your health is unknown, and thus they are still experimental. <https://bit.ly/38F8lmu>
